A STUNNING AND SECURE ENTRANCE FOR YOUR HOME

If you're looking to transform your home our range of composite doors are the ideal choice. With a great range of traditional and contemporary styles, colours, furniture and glass you can design the perfect focal point for your home.

Your door will look stunning for years to come, manufactured from a tough GRP surface in either a woodgrain finish to replicate timber or a smooth/etched finish to replicate aluminium. The inner core is manufactured from high density polyurethane foam, which offers exceptional thermal efficiency and will help to reduce energy bills.

The safety and security of your loved ones and belongings is a key factor in your purchase and you can be confident that as standard our doors are manufactured with leading hardware which will ensure your new door does just that.

A MUCH MORE Secure home

Security of valued possessions and protecting loved ones are the main priority of any homeowner. Our composite doors have been designed to exceed even the most stringent of expectations. This is why we have incorporated a number of security features as standard.

- High performance multipoint locking system, set for smart technology. Your lock will be Kubu equipped, meaning you can easily transform your door to a smart door at any point.
- A neat and unobtrusive 2D-C hinge available in a range of colours for your door. The unique patented lateral adjustment of +/- 3mm, it has a high load carrying capacity of 40kg, preventing the door from dropping.
- Ultion Diamond Secure Cylinder Lock supplied on all doors.

Optional Upgrades for your door

AV2/AV3 & AV2/AV3 Heritage Automatic Door Lock

Upgrade to an automatic locking door, this lock negates the need for a lever/lever door handle. You just pull or push the door closed with the bar handle and it automatically throws the hooks and dead bolt, making your home secure. When leaving your home or going to bed just simply turn the key to deadlock everything into position.

Ultion Smart

An innovative new lock to transform your door to a smart door, which can be locked with your smartphone or watch.

Secured by Design

For the ultimate in security upgrade your door to this coveted standard.

Please note Kubu and SBD are not available with AV2/AV3.

COMPLETE PEACE OF MIND

For enhanced security and extra peace of mind, the coveted policy-led Secured by Design standard can be easily achieved across our range of composite doors with a few minor upgrades.

Specifying 'Secured by Design' on your order ensures your door will be manufactured by our fabricator The Glazerite UK Group Ltd to the ultimate security specification for complete peace of mind and protection of your home.

Secured by Design

Official Police Security Initiative

HOW TO ACTIVATE YOUR KUBU SMART LOCK

Your new door will be Kubu equipped all you have to do is visit kubu-home.com to purchase your Kubu Starter Kit, install the app and you have a smart door.

Kubu uses smart and simple technology to monitor your lock in real time. You will be able to check the status of your door no matter where you are from the Kubu app on your phone.

The Kubu starter kit comes with one home hub, one door module, a plug and batteries. You can simply add more doors to your hub and app by purchasing additional door modules.

Setting up your new smart door couldn't be easier:

1. Download the Kubu App onto your phone.
2. Plug in your Home Hub. The Home Hub is a wifi bridge that connects to your door module and activates it.
3. Insert the Door Module into your door lock.

Then start enjoying the benefits.

Visit kubu-home.com for more information.

ULTION BECAUSE IT STAYS LOCKED

Millions of doors in the UK can be opened quietly in under 10 seconds with normal tools. Even the most secure multi-point hook mechanisms are disabled when the cylinder lock is snapped.

Still protects when the key is inside the lock

Something many of us are guilty of is leaving the key in the lock on the inside. Even with the most snap secure locks leaving the key in the lock can completely remove any snap protection you thought you had. But not with the Ultion!

Attack forces lockdown mode

The moment that Ultion detects forced entry it activates an attack lock directly into the central cam, this is 'Lockdown Mode'. Even if the most determined intruder gets past Ultion's two sacrificial sections he won't get to attack lock because it is protected deep inside a solid molybdenum core and secured with a dedicated retaining pin. When Ultion is in lockdown mode your home and family are safe.

This is why we have chosen to incorporate the Ultion Diamond secure lock with all of our composite doors. When the Ultion detects attack a hidden lock automatically engages. Even in lockdown mode it stops the intruder from opening your door. Even after the failed attempt, your door can still be opened and locked from the inside.

If an intruder snaps Ultion and breaks into your home, Ultion will pay you*£1000.

£1000
GUARANTEE

*your lock must be registered

The Ultion has been rigorously tested, nothing has beaten it.

For more information on Ultion and the benefits visit: www.ultion-lock.co.uk

THERMAL PERFORMANCE

Composite doors are much more thermally efficient than either timber or PVC, and our doors are manufactured to the highest quality standards, making them more thermally efficient by design.

The warm foam core allows the door to have a significantly better 'U' value than traditional timber doors, PVC skinned timber doors and steel doors, and our entire range meets with the requirements of the current Building Regulations.

There are various upgrades to glass options which increase the thermal performance of the door. The combination should keep your home warmer and could help reduce your energy bills.

DESIGN YOUR *Perfect door*

YOUR STYLE AND COLOUR

The first decisions in designing your new front door are deciding on the style and colour.

- Choose from over 40 door designs.
- Over 40 colour options, including woodgrains and colour match option to any RAL colour.
- Supplied in a VEKA or Halo sculptured or bevelled outerframe.

YOUR GLAZING OPTIONS

The glass you choose is as important as the style and colour. We have a wide array of glass designs perfectly suited for each type of door.

Choosing the right glass options can really be a focal point for your door.

YOUR HARDWARE OPTIONS

The hardware you choose gives your door its own individual look and is available in a wide range of colours.

Choosing the right hardware makes a statement about you and your home.

A TRADITIONAL STYLE

The range of traditional doors are designed to replicate the most popular timber doors and come with highly defined mouldings and realistic wood-grain embossing on the surface. Whether used in a Victorian home, a modern townhouse or a farmhouse cottage, these doors always add to the appearance of the entrance.

These doors are transformed by the choice of decorative glass and colours, we have a fantastic colour range and a huge range of glass options, from the simple diamonds of Classic, through to the stunning multi-faceted bevelling and black chrome coming of Reflections, these doors can make a real statement.

A CONTEMPORARY STYLE

A selection of styles using a non-moulded, woodgrain door blank or smooth/etched LINKS blank which perfectly replicates aluminium. With a wide selection of glass options our contemporary doors are glazed using the TriSYS cassette system as standard. For a more modern look, choose our Urban or Inox doors using either the Urban aluminium cassette or the stunning Inox stainless steel frames.

CHOOSE YOUR FRAME

You can choose from a sculptured profile for a more rounded, ornate style or bevelled for an angular, more modern finish. Then choose a frame colour that compliments or contrasts with your door to complete the look.

Sculptured Profile

Bevelled Profile

DOOR HARDWARE

A great range of traditional and contemporary door hardware to complete the look of your door (see pages 64 to 67).

CHOOSE YOUR *colour*

Standard Colours

We offer a range of 8 external colours with a white interior as standard. Doors can also be ordered coloured on both sides. Please note not all door styles are available in the full colour range.

Colour groups are based on lead times not necessarily pricing.

Premium Colours

Our range of 38 premium colours are created using state-of-the-art coating technologies as used in the Yacht industry. The paint has been prepared to the recommended glass level which range from a Semi-Matt, Satin or Semi-Gloss sheen dependent upon colour.

Please note: Colours shown are for guidance only and this printed brochure should not be relied upon for exact colour matching purposes. Swatches are available on request for an exact colour match.

RAL Colours

Any RAL colour is available as a special order. Here are the most requested colours as an example.

Marquise

TRADITIONAL DOORS

Your new door should keep safe and secure for years to come however with all products and especially those that are exposed to the elements we recommend that you carry out a care and maintenance routine.

- Door frames should be washed with warm soapy water, however stubborn stains can be removed using specialist uPVC cleaners and by following the manufacturers' guidelines.
- The door leaf should only be cleaned using warm water or non-aggressive composite door wipes. No solvent-based product or abrasives should be used as these will damage the surface of the skin.
- External glass should be cleaned with warm soapy water and cleaned with a proprietary glass cleaner.
- Hardware can be cleaned with a mild detergent and wiped clean.
- No harsh chemicals or abrasives should be used.
- The door should be maintained for your guarantee to apply. Hinges should be lubricated with engineering oil. Cylinders can be lubricated with Teflon-based products only, as other oils may cause degradation. If necessary, a small amount of lubricant can be applied to the moving parts such as letterplates, handles and knockers.

CHOOSE YOUR *glass*

Your choice in glass for your new door can really make a statement and help to transform your home. Our decorative glass options are manufactured to the highest possible standard and come as Energy Plus incorporating 'Low E' glass and Argon gas to give a centre panel 'U' value of 1.1 and to ensure that all our doors meet Door Energy rating level of B as a minimum.

What's your colour?

With a full suite of hardware in a great range of colours you can design a front door that will be the envy of your neighbours. Choose from black, chrome, gold, stainless steel and rose gold (handles are also available in white).

Works with lever handles or slam locks.

Find out more at www.ultion-lock.co.uk/ultion-smart

Get Ultion Smart!

Upgrade your lock to Ultion Smart to control your door lock with your smartphone, your watch, by voice command or with a key.

Unlock on approach

You can set Ultion Smart to unlock as soon as you enter the unlock zone without even touching your phone.

Lock behind you

Never wonder if you locked the door again. You can set how long Ultion Smart stays unlocked for before securing the door again.

Send guest keys by phone

You can send a digital key or numerical code for use of the optional wireless key pad. These can be used as a timed or permanent access straight to a guest's phone by text or email.

Voice control

Operate via Alexa and Siri.

£1000 Security Guarantee

Ultion and Ultion Smart locks give the highest protection from the most common method of forced entry - lock snapping.

Registered locks are covered by the £1000 Security guarantee.

Activate your Ultion 5 year guarantee for free at www.ultion.co.uk

Wireless keypad

The wireless keypad option connects to Ultion Smart using bluetooth. You get all the convenience of a keypad without fitting a control panel to your front door.

A GRAND ENTRANCE FOR YOU AND YOUR HOME

Minimal maintenance.

No painting or warping, just a simple wipe down.

Much more secure.

Fitted with Ultion cylinder and achieving SBD (Secured by Design) standard.

Give your home a unique entrance.

Choose from a range of styles, colours and hardware.

Smart door option.

With Kubu and Ultion Smart you can keep track of your door status wherever you are.
